# REPORT.

TERRITORY OF NEW MEXICO,
OFFICE OF AUDITOR,
SANTA FE, Dec. 22, 1890.

*To His Excellency, L. Bradford Prince, Governor of New Mexico:*

SIR: In pursuance of law, I herewith submit to you, and through you to the 29th Legislative Assembly, the official report required of this office, showing the operations of the revenue department of the Territory from December 16, 1888, to December 3, 1890, the financial condition of the Territorial Treasury on December 3, 1890, with such plans and estimates as are deemed expedient for using the public money to the best advantage, for diminishing the public expenses and sustaining the credit of the Territory.

Detailed estimates of the probable expenditures to be defrayed from the Treasury during the two ensuing years are also given as the law requires.

I take great pleasure in stating that the revenues received from December 16, 1888, to December 3, 1890, have largely exceeded the disbursements during the same time, as shown in this report by statements D, E, F, G, H, I, J and K.

The revenue law of 1889, called the "Perea Finance Law," has proven very beneficial to the Treasury and has worked remarkably well. It needs a few alterations; for instance, the appropriation for jurors is too large whilst the appropriation for witnesses is not large enough. I am of the opinion, also, that the appropriations should be made for counties instead of districts, for the reason that where the appropriation is limited the counties holding courts first absorb the entire appropriation, leaving nothing for the other counties.

As shown by the expenditures during the past two years, the appropriations for courts and miscellaneous are larger than

necessary, the courts during the past two years having been run very economically.

By some inadvertence the levy provided to raise revenue for the salary fund was made too low and does not produce the amounts required to pay salaries as now required by law. The salaries of the Territorial officers, Solicitor General, six District Attorneys and four Clerks of the District Court are $23,500. Now there are five clerks, and the levy of 24-100 of a mill brings about one-half of the amounts required; as a consequence there is now a deficiency. There is no money in said fund to pay the salaries for the month of December, 1890. There is also something due to the Clerks and some District Attorneys, and the amount due on March 3, 1891, will be $8,950, less the amounts that will be turned over by the Clerks in January next as provided by law.

Section 548 of the Compiled Laws of New Mexico provides that the Judges of the Supreme Court shall be paid from the Territorial Treasury the amount of the actual expenses in holding courts at places other than those at which the United States courts are held in their districts, not exceeding $300 in any one year.

Also, chapter 63, laws of 1889, provides for a bounty to be paid for the killing of certain wild animals mentioned in said law. Claims made by virtue of said last mentioned law, on file at this office, amount to $892, and a good many have been withdrawn from this office, the amount of which cannot be stated.

There are also on file at this office some accounts of District Attorneys for fees in cases disposed of, also certificates for services rendered prior to March 4, 1889. The same is the case with the payment of Jury Commissioners; the amount shown by the lists as due is $787.44.

Payments of these five different items are authorized by law, but as there is no appropriation to meet their payment they have not been paid, and I think it is to the credit of the Territory to make appropriations to pay such demands.

I call your attention to the fact that the lists of allowances sent to this office from the several counties in the Territory show that there are unpaid certificates issued to witnesses, from March, 1889, to December 3, 1890, over and above the appropriations made by the revenue law, to the amount of $21,448.94, distributed as follows:

## STATEMENT O.

**Consolidated School Report for the Year 1889.**

AUDITOR'S OFFICE,
TERRITORY OF NEW MEXICO,
SANTA FE, N. M., March 18, 1890.

In presenting my consolidated annual report for the year ending December 31, 1889, it gives me great satisfaction to say that the year has been marked by substantial progress. The number of pupils has increased; several new buildings, with many valuable improvements, have been opened, and the teachers have shown a still larger measure of zeal in carrying forward the work of instruction. Not less gratifying than these evidences of improvement has been the growing interest of the public in the schools.

While acknowledging the growth of schools, it would be unwise to conceal the fact that most of the districts are still sadly deficient in school accommodations. Most of the houses rented were never intended for schools, and are deficient in almost every sanitary requirement.

Very respectfully,
TRINIDAD ALARID,
Territorial Auditor.

## ABSTRACTS

### From Reports of County School Superintendents.

### PUBLIC INTEREST IN SCHOOLS.

The interest which is being taken in the cause of education throughout the county is very promising and satisfactory. The people are becoming acquainted with the fact that well established public schools are of great benefit to the respective localities in which they are located, and at the same time they show their appreciation of the benefits to be derived from increased educational facilities by working together and trying to secure good and competent teachers. In that respect I have done everything in my power to help them.

LUCIANO ORTIZ,
Supt. Schools Bernalillo Co.

I take pleasure in stating that parents and school officers generally are taking great interest in the public schools of the county, and that the school boards have in every instance, during the past year, expended the school funds judiciously, and have conducted the affairs of their respective districts in such a manner that in nearly every district there were sufficient funds to pay the running expenses of the school until the apportionment was made for December; and in several districts funds were advanced by private individuals for the purpose of putting up appropriate buildings for school purposes, which money in each instance has been nearly all repaid, and to-day Hillsborough, Kingston, Cuchillo and Monticello have good school houses built with school funds. Two of said districts are out of debt, and

the other two will be in the near future, if the school funds are judiciously handled, as they have been during the past year.

D. H. WENGER,
Supt. Schools Sierra Co.

In many of the districts a strong desire for increased school facilities exists, but with the small amount of school money available there seems but little prospect of adding much to the opportunities now possessed.

J. P. CHASE,
Supt. Schools Socorro Co.

I have visited all the districts and the schools therein, and found the teachers efficient and assiduous, and very careful for the mental and moral welfare of the children under their control. The pupils, I find, are diligent and seem particularly anxious to acquire a thorough knowledge of the English language.

J. B. TRUJILLO,
Supt. Schools Taos Co.

INCOMPLETE RETURNS.

It is impossible to furnish a complete statement of receipts and expenditures for 1889, owing to the failure of the school directors of several districts to send in reports.

J. B. TRUJILLO,
Supt. Schools Taos Co.

I am pleased to be able to say that reports with but few exceptions have been made promptly, and in good form.

J. P. CHASE,
Supt. Schools Socorro Co.

I have the honor to herewith submit my annual report, but am sorry indeed that it is not more complete. I have made special effort, but failed to get all the reports from the different districts.

D. L. STRINE,
Supt. Schools Colfax Co.

I regret very much my inability to make out a full and complete report, but owing to the negligence of the directors of several school districts, I am unable to do so. With the exceptions of two or three districts mentioned the financial reports and those showing school population have been complete, but those in regard to enrollments, attendance and number of persons studying different branches have been incomplete and unsatisfactory in most all instances.

L. C. WOODSON,
Supt. Schools Doña Ana Co.

Several directors of school districts in this county have failed to comply with the law requiring annual reports from school directors.

J. B. TRUJILLO,
Supt. Schools Taos Co.

POLL TAX.

The tabulated statement herewith submitted shows that the total sum of seven hundred and thirty-three dollars and five cents ($733.05), only, was collected in the several precincts of the county under the laws passed by the late Legislative Assembly of New Mexico (Chapter 112, Laws 1889.) It will also be seen from such statement that many of the constables have been clearly derelict in their duty. Take, for instance, the fourth precinct, where only $60 has been collected and contrast with the returns of precinct nine (San Ildefonso) which amount to $82.25. There can be no excuse for the constable, for his powers under the law are almost arbitrary. A few examples made of delinquents would have a salutary effect and it would be soon understood in the community that the law was imperative and must be obeyed.

J. P. VICTORY,
Supt. Schools Santa Fé Co.

Only three districts have notified me that the poll tax is being collected and the funds turned in to the district treasurer. This is a matter that should receive the attention of the district boards, whose moral duty it is to see that the poll tax is collected

and turned in to the district treasurer; few people will object to paying same when they find that the funds remain in the district from which they are collected.

D. H. WENGER,
Supt. Schools Sierra Co.

TEACHERS.

There are two serious drawbacks to success in the public schools in this county, the first of which is the lack of thoroughly competent teachers.

J. P. CHASE,
Supt. Schools Socorro Co.

The teachers of the county are taking great interest in their respective schools and are deserving of much credit for the work they are accomplishing. They are generally well paid, as the average salary is something over $60 per month.

D. H. WENGER,
Supt. Schools Sierra Co.

I notice that the teachers are taking a great interest in their work, and a generous spirit of emulation prevails throughout the county, each teacher striving to bring his school up to the highest possible standard.

LUCIANO ORTIZ,
Supt. Schools Bernalillo Co.

Believing that we can only have excellent schools by the employment of experienced and competent teachers, and desiring to advance the standard of educators beyond that of former years, I issued in January last the following circular of instructions to the directors of all the districts.

"A public examination of teachers or those desiring to teach in the public schools of Santa Fé county, will be held at San Miguel college, this city, on Thursday, the 31st day of January, 1889, at 10 o'clock in the forenoon of that day."

JOHN P. VICTORY,
Supt. Schools Santa Fé Co.

ENGLISH TAUGHT IN SCHOOLS.

English was taught during the past year in every school district in the county, and the English and Spanish have been taught in four districts, while at the present time the English language is taught in all the districts, while the English and Spanish are taught in but three districts, and I find that a good proportion of the children now attending the schools where the Spanish and English are taught, speak the English language quite well.

D. H. WENGER,
Supt. Schools Sierra Co.

A growing desire is plainly manifest in a majority of the Mexican districts to have the children instructed in the English language. It would be well to encourage this desire, and where practicable every encouragement and all possible aid will be extended to that end.

J. P. CHASE,
Supt. Schools Socorro Co.

SCHOOL ATTENDANCE.

The average daily attendance is over 17 per cent greater this year than last, while the enumeration has increased less than 3 per cent. The enrollment would be much greater were it not for the distance that a large proportion of the children would be required to travel in going to school. I find the largest average daily attendance according to the enrollment in the Fairview district, while the largest enrollment according to the enumeration and the largest average daily attendance according to the enumeration is in the Chloride district. The enrollment and the average daily attendance and the success of the teachers, I believe is due to a great extent to the interest with which the district board attends to its business, and I would therefore suggest that the people interested in education cannot be too careful in the selection of their respective school boards at the coming election.

D. H. WENGER,
Supt. Schools Sierra Co.

There are at present forty-nine public schools in this county, and the attendance is twice and in many places three times as much as in previous years.

LUCIANO ORTIZ,
Supt. Schools Bernalillo Co.

The attendance of the schools of this county amounts to one-third of the total school population.

J. B. RALLIERE,
Supt. Schools Valencia Co.

The number of children of school age of both sexes is 5,425 according to the census of the various school districts. And the average attendance at the public schools of the county is about one-half of the school population.

LUCIANO ORTIZ,
Supt. Schools Bernalillo Co.

SCHOOL BUILDINGS.

There is only one school building in this county.

J. B. TRUJILLO,
Supt. Schools Taos Co.

The school buildings belonging to the respective districts I find comfortable and well arranged, with plenty of light; but in several districts where rooms are rented, the light is wholly inadequate for the health and comfort of the teachers and pupils, and in these districts funds have accumulated so that at the same rate of increase funds will soon have accumulated sufficiently to build appropriate school houses. At the time Sierra county was organized in 1884, there was not a public school house in the county and there were only three public schools, and no public funds, while to-day we have four public and two private school houses, ten organized districts, wherein are employed twelve teachers, with an average length of school term for the past year of six and one-eighth months and for the com-

ing year will exceed an average of seven months throughout the county.

D. H. WENGER,
Supt. Schools Sierra Co.

EXPENDITURES.

The statement herewith inclosed, to which your attention is respectfully invited, is a very fair exhibit of the conditions existing in each school district during and at the close of the past year. Under existing regulations (section 1108, Compiled Laws, 1884), district treasurers are required to render reports December 1 of each year. Consequently the statement does not show the true financial condition of the districts at the close of the year. Less expenditures during December, and credit amount of December apportionment of public school fund.

J. P. CHASE,
Supt. Schools Socorro Co.

TEXT BOOKS.

A great drawback to the cause of popular education in this county is the want of uniformity in text books for use in the public schools, and to this may also be added the actual scarcity of any kind of books in some of the schools.

J. P. CHASE,
Supt. Schools Socorro Co.

While my predecessors have in the past permitted directors to purchase school books, yet I very much doubt the power of the directors in the premises. In my opinion, as the law now stands, we have no right to apply any portion of the school fund to the purchase of books. My experience, however, both as director and superintendent, has demonstrated the fact that the parents of Santa Fe county, with few exceptions, are either unwilling or unable to provide their children with the necessary school books. No doubt this unwillingness often springs from poverty, and in that case is to be excused. Upon the opening of the schools an urgent demand came at once for books from almost every district, which upon mature reflection I con-

sented to furnish upon the condition only that the purchases should be economically made, and upon the promise from director and teacher that the books should be carefully retained in a good state of preservation throughout my term. To show the impoverished condition of our schools, so far as their literature is concerned, I will give an extract from a letter received by me from a teacher in one of our northern districts. "This morning I opened with nineteen scholars, among them four girls. There are very few school books, and the children bring all kinds of literature from an almanac to a new testament. One little boy brought a book on theology of A. D., 1770, bound in sheep skin." This district is only a reflex of almost all the others. I am a believer in free books for our public schools, and in my opinion our next legislature should provide by law for a reasonable supply of approved school literature, which should be in all respects uniform in character throughout the county, and unobjectionable to parents and pupil.

J. P. VICTORY,
Supt. Schools Santa Fe Co.
